

Empathy map

Use this framework to develop a deep, shared understanding and empathy for other people. An empathy map helps describe the aspects of a user's experience, needs and pain points, to quickly understand your users' experience and mindset.

Build empathy

The information you add here should be representative of the observations and research you've done about your users.

Says What have we heard them say? What can we magine them saying? There are two It's often best to have both types main types of of business business analyst on board, analyst: as they can complement each Technical and others skills and Functional. knowledge. Business analysis is the process of identifying business needs and then designing solutions to address those needs.

Thinks r wants, needs, hopes,

What are their wants, needs, hopes, and dreams? What other thoughts might influence their behavior?

The business analyst will work with you to understand exactly what your business needs in order to grow and

succeed.

Business analysis takes on an even greater importance.

CONSUMER THOSE TO ARE IN STARTUP

As you can see, business analysis for startups is a complex and detailed process.

It's about

understanding

what your business

needs in order to

grow and succeed

, and then Figuring

out how to make

that happen.

 \bigcirc

Once the solution

has been

designed, the

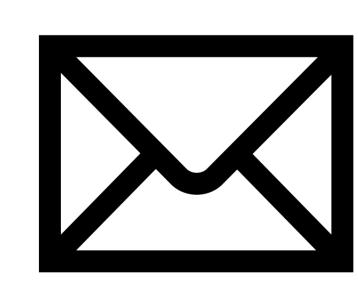

business analyst

will then move on

to implementation

planning.

This will involve collecting data and Feedback From users.

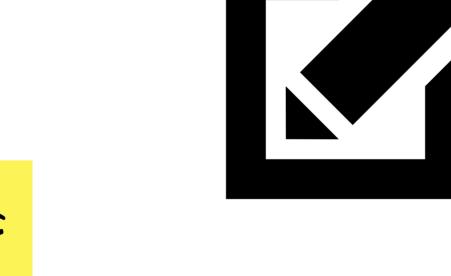

Startups are often operating on a shoestring budget, so its crucial to make sure that every penny is being spent wisely.

Once the implementation plan has been created, the business analyst will move on to evaluation.

Feels

What are their fears, frustrations, and anxieties? What other feelings might influence their behavior?

If you're thinking of starting a business, make sure you invest in a good business analyst they could be the difference between success and failure.

Does

What behavior have we observed? What can we imagine them doing?
